Education

University of California, San Diego — June 2020

B.S. Cognitive Science (Design & Interaction)

Experience

Web Designer + Developer — Associated Students Graphic Studio

December 2019 → Present

Lead web design and development initiatives for UC San Diego's student government. Responsibilities include meeting client requests, campus department project requirements, and more.

Web Developer — Design Co

June 2019 → Present

Collaborate with UX and visual designers to implement graphics and high-fidelity prototypes onto an online presence for UC San Diego's largest pre-professional design organization and related event web pages.

UX Developer — UCSD Information Technology Services

June 2019 → October 2019

Migrated and updated website content using CMS. Analyzed web content architecture and made organizational improvements. Improved the web design of UCSD's largest subdomain (Blink) of >4,000 pages using user data.

UX Developer — Center for Applied Internet Data Analysis

June 2018 → September 2018

Developed visual components for a crowdsourcing-based platform for Internet measurement tasks, producing hundreds of results from 43 users who signed up in the 1st round of experimenting.

Skills + Tools

HTML	Git	SEO
