Education

University of California, San Diego — June 2020

Bachelor of Science, Cognitive Science (Design & Interaction)

Experience

Web Developer — Associated Students Graphic Studio

December 2019 → Present

Lead web development initiatives for UCSD's student government—the latest being the Sun God Festival website, which attracts an audience of upwards of 12,000. Other responsibilities include meeting client requests.

Web Developer — Design Co

June 2019 → Present

Collaborate with designers to implement prototypes into high-fidelity states for UCSD's largest pre-professional design organization. Other functions include being a student leader by helping grow the design community.

UX Developer — UCSD Information Technology Services

June 2019 → October 2019

Updated website content using CMS. Analyzed web content architecture and made organizational improvements. Improved web design of UCSD's largest subdomain (blink.ucsd.edu) of >4,000 pages using user data.

UX Developer — Center for Applied Internet Data Analysis

June 2018 → September 2018

Developed visual components for a crowdsourcing-based platform for Internet measurement tasks, helping produce hundreds of datasets from 43 users who signed up in the 1st round of experimenting.

Skills + Tools

HTML	Git	SEO
